

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
2. Independent claim 4 has been amended to remove hydrogen from the list of alternative groups for functional group R². Upon further consideration of the prior art, it is noted that the prior art fails to disclose or suggest the remaining species where R² is phenyl or the various recited salts. Therefore, claims 3 and 4, and claims 5, 8-11, and 22 which are ultimately dependent upon claim 4, are allowed.
3. The following prior art is made of record:
4. *Chem. Commun.* **1999**, 1285-1286 (herein "Ashford") discloses the use of sodium 2-bromoisobutyrate in an ATRP process (see right column on page 1286). Ashford fails to disclose or suggest the use of sodium 2-bromoisobutyrate to produce a nitroxide. Therefore, Ashford does not bar an allowance of the present claims.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
